

## Reception News

10.3.16

Dear Parents,

What an exciting week we've had. We met our own real robots this week and we had such a great time teaching them how to move. We can make them go forwards and backwards and we can even make them turn around!

Next week we will carry on with our robots topic. We will be doing some more work with our robots and teaching them to move around special maps to find things. We will also be doing some more work with magnets and finding out which things in our school are

magnetic.

Our Rainbow Challenges have been a big success in Reception. The children are really working hard and are completing all of their learning challenges. Ask your child to tell you about the challenges they had this week.

Finally, thank you if you have already sent in a PE kit for your child. The children looked so smart in their kits this week. If you need any help with this please just ask.

Thank you all for your support,  
Mrs Burton, Mrs Neil and Ms Davis
