

Reception News

28.4.16

Dear Parents,

What another exciting week we have had. The children have continued to watch the tadpoles growing and changing. We think that we might be able to see some back legs starting to grow. Why not pop in and see if you agree.

This week we also had some new arrivals in Reception. We have got our very own family of caterpillars. We have to take good care of them and hopefully in 7-14 days they will each make a chrysalis. Ask your child to tell you what will happen after that.

In maths this week we have been working with numbers beyond 10. Some of us have even started to use doubling to solve problems. Why not practise some simple addition problems at home with your child.

Next week we will be learning all about snails. We

will be meeting some snails of different sizes and learning all about what snails do. We will continue to watch our tadpoles and caterpillars change and will let you know if anything exciting happens.

Thank you for your support,

Mrs Burton, Mrs Neil and Ms Davis
